European WealthBriefing Awards 2016**ERI wins the "Portfolio Management" category**

ERI, with its OLYMPIC Banking System software package, has been crowned best in the "Portfolio Management" category for Europe, by WealthBriefing, the leading online journal and news website dedicated to serving the Private Banking and Wealth Management sector. Showcasing 'best of breed' providers, the awards recognise companies and teams which the judges deem to have 'demonstrated innovation and excellence during 2015'.

The judges concluded that ERI not only has a "comprehensive" application but that the European credentials were an advantage when compared to other offerings.

Commenting on the award, Nicholas Hacking, Director, ERI said: "We are delighted to have been voted the winner of this prestigious award by so many of the industry's thought-leaders. Our work in partnership with our customers has resulted in continuing investment in the OLYMPIC Banking System in the last few years, in areas such as portfolio management among others. With a growing number of our customers choosing to use the functions we offer in this area, it is great news to see this success acknowledged by this award".

Stephen Harris, CEO of ClearView also went on record saying: "The firms who triumphed in these awards are judged on the basis of their responses to a number of specific questions focusing on the client experience. It's not just a question of quantitative performance metrics. This approach ensures the awards truly reflect excellence in wealth management."
