September 2016

BGL BNP Paribas Luxembourg live on OLYMPIC Banking System

In centralising securities' transactions at its operations' hub in Switzerland, BGL BNP Paribas Luxembourg sought a robust and efficient platform to enhance the overall management of its securities' operation. The bank selected OLYMPIC Banking System to complete this task.

By following the example of several other BNP Paribas Wealth Management banks which operate OLYMPIC Banking System, BGL is capitalising on the standardisation of the IT systems across the group and the excellent knowledge the bank's teams have of the product.
