ERI featured in the IDC FinTech Rankings Top 100

ERI is delighted that, thanks to the success of its OLYMPIC Banking System across over 55 countries and multiple sectors of the banking industry, it has again featured in the IDC Fintech Rankings Top 100 for 2018.

Nicholas Hacking - Sales Director at ERI commented: "It's excellent to see ERI's place in the index rising compared to the previous year, which just goes to demonstrate the continuing commercial success we have been enjoying, combined with a client base who so often re-confirms their commitment to the platform and the added value that the continuous enhancement of our offering brings them".

"A place on the IDC FinTech Rankings is a significant accomplishment, demonstrating a provider's commitment to the success of its financial institution clients," states Karen Massey, Research Manager at IDC Financial Insights. "The IDC Fintech Rankings, now in its 15th year, is the global industry standard register of financial services tech providers. Congratulations to the 2018 winners."
