Geneva, February 2006

Dutch win for ERI Bancaire

ERI, a leading provider of banking solutions, is proud to announce the signature of a Licence Contract with van Lanschot Bankiers NV in the Netherlands for the OLYMPIC Banking System.

Van Lanschot Bankiers has launched a significant programme of modernisation of its IT systems. OLYMPIC Banking System has been chosen for its wide functional coverage as well as the strong track record of successful implementations shown by ERI.

Van Lanschot Bankiers NV is the oldest independent bank in the Netherlands, with a history dating back to 1737. The bank focuses on three target groups: high net-worth individuals; mid-size businesses, including family businesses; and institutional investors. Van Lanschot Bankiers stands for high-quality services founded on integrated advice, personal service, and customised solutions and is listed on the Euronext Amsterdam Stock Market.

This contract further confirms the commitment of ERI to address the needs of private banking and wealth management markets globally. With no less than 1,200 users, OLYMPIC Banking System will enable van Lanschot Bankiers to increase its processing speed and efficiency, reduce the time to market for new products and better support its expanding business requirements.

The implementation project has already started, with a go-live scheduled for 2008.
