**ERI Bancaire's OLYMPIC Banking System Achieves Oracle Exadata Ready, Oracle Exalogic Ready and Oracle SPARC SuperCluster Ready Status****OLYMPIC Banking System is supported and ready to run on Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud and Oracle SPARC SuperCluster**

**2013.02.12** - ERI Bancaire today announced that its OLYMPIC Banking System version A has achieved Oracle Exadata Ready, Oracle Exalogic Ready and Oracle SPARC SuperCluster Ready status through Oracle PartnerNetwork (OPN). Today's announcement demonstrates that ERI Bancaire supports OLYMPIC Banking System version A with Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud, Oracle SPARC SuperCluster and Oracle Solaris 11. ERI Bancaire is a Gold level member of Oracle PartnerNetwork.

Oracle Exadata Ready, Oracle Exalogic Ready and Oracle SPARC SuperCluster Ready are part of the Oracle Exastack Ready program which allows partners, such as ERI Bancaire to be recognized by Oracle for developing, testing and tuning their applications on Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud or Oracle SPARC SuperCluster engineered systems. The Oracle Exadata Database Machine delivers extreme performance and is the ideal database platform for OLTP applications, data warehouses as well as the varied and unpredictable workloads of cloud computing. It is a complete package of servers, storage, networking, and software that is massively scalable, secure and redundant. Oracle Exalogic Elastic Cloud is hardware and software engineered together to provide extreme performance, reliability and scalability for Oracle, Java and other business applications, while delivering lower TCO, reduced risk, higher user productivity and one-stop support. Oracle SPARC SuperCluster is the world's most efficient multi-purpose engineered system, delivering extreme efficiency, cost savings, and performance for consolidating mission critical applications and rapidly deploying cloud services. Oracle Solaris 11, the first cloud OS, brings the reliability, security and scalability of the #1 enterprise OS to the cloud, allowing customers to run their most demanding enterprise applications in private, hybrid, or public clouds.

The Oracle Exastack Ready program recognizes ERI Bancaire as having applications that leverage the latest Oracle technology to better support joint customers. The OLYMPIC Banking System is a fully integrated Banking Solution which supports all areas of financial activities.

"The achievement of Oracle Exadata Ready, Oracle Exalogic Ready and Oracle SPARC SuperCluster Ready status is a key benefit for our customers, allowing them to benefit from state of the art IT infrastructure to run their business with great confidence, security and scalability," states Jean-Philippe Bersier, Head of Business Development at ERI Bancaire.

“When partners such as ERI Bancaire leverage the latest component products of Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud and Oracle SPARC SuperCluster as the foundation for their applications, they benefit from a complete, integrated and cloud-ready infrastructure that will help them utilize new features and functionality and drive innovation,” said Chris Baker, Senior Vice President, Worldwide ISV and OEM Sales, Oracle. “We are pleased to see ERI Bancaire achieve Oracle Exadata Ready, Oracle Exalogic Ready and Oracle SPARC SuperCluster Ready status as this significant milestone helps equip them to deliver superior value to customers.”

### **ABOUT ERI**

ERI is an international company specialising in the design, development, distribution and support of the integrated, real-time banking and wealth management software package: OLYMPIC Banking System®. Operating in many of the major financial centres, ERI is present in Geneva, Zurich, Lugano, London, Luxembourg, Singapore, and Paris.

ERI is focused on providing comprehensive, quality, software with effective system implementation assistance and efficient on-going maintenance and support for clients worldwide.

More than 300 banks and financial institutions across over 50 countries in Europe, the Middle East, Africa, the Americas and Asia have already chosen the OLYMPIC Banking System®.

### **About the Oracle Exastack Program**

The Oracle Exastack program helps enable Independent Software Vendors (ISVs) and other members of Oracle PartnerNetwork (OPN) to rapidly build and deliver faster, more reliable applications. Leveraging the Oracle Exastack program, qualifying OPN members have access to Oracle performance experts and dedicated labs for testing and tuning their applications on Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud and Oracle SPARC SuperCluster. With an Oracle Exastack Optimized status, partners will receive access to corresponding Oracle branding, logos and related benefits to effectively differentiate their offerings. Customers can be confident when selecting Oracle Exastack Optimized applications that they are supported, and have been tested and tuned with the goal to achieve optimal performance, scalability and reliability. Also part of the program, Oracle Exastack Ready is dedicated to helping ISVs run their solutions on the latest major release of Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud, Oracle SPARC SuperCluster and their component products, including Oracle Database, Oracle WebLogic Server, Oracle Solaris, Oracle Linux and Oracle VM. These products provide partners with a lower cost and high performance infrastructure for database and application workloads across on-premise and cloud based environments. ### **About Oracle PartnerNetwork**

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more, visit [www.oracle.com/partners](http://www.oracle.com/partners)
