

## FUTURE PROOF YOUR TECHNOLOGY

OLYMPIC Banking System is a fully integrated, front-to-back, parameter-driven digital technology platform that helps banks and financial institutions across a range of sectors optimise their operations and deliver an enhanced customer experience.

### ABOUT US

ERI's ambition is to deliver a unique technology platform – OLYMPIC Banking System – that constantly evolves and adapts to meet financial institutions' critical requirements and responds to the constraints and challenges of the market.

OLYMPIC Banking System, has established itself as a pivotal driver of the business growth of banking and financial institutions.

**More than 400 banks and financial institutions across over 60 countries have chosen OLYMPIC Banking System to streamline, automate and digitise their daily processes to enable innovation, keep control on costs and risks, connect to a wider ecosystem via open APIs resulting in the capability of offering added-value services with a shorter time-to-market.**

### DIGITISING PROCESSES FROM FRONT TO BACK

OLYMPIC Banking System helps automate complex processes from front-to-back office, unlocking institutions' full growth potential while ensuring data connectivity and accuracy.

### AN INTEGRATED, REAL-TIME PLATFORM WITH EXTENDED FLEXIBILITY

OLYMPIC Banking System enables omnichannel access and streamlined processes, built on a fully integrated platform using modern Services Oriented Architecture (SOA) principles. It is 100% thin-client, offering a responsive, user-friendly web interface and a wide range of capabilities:

### OUR SOLUTIONS ARE DESIGNED FOR:

- › Private Wealth Management
- › Custodians and Funds administrators
- › Central Banks
- › Retail Banks
- › Corporate Banks

# ACHIEVE OPERATIONAL EFFICIENCY THAT ANTICIPATES YOUR CLIENTS' NEEDS

## OUR EXPERTISE

**Core Banking**  
**Digital Banking**  
**CRM, on-boarding**  
**Portfolio Management**  
**Advisory**  
**Fund Administration**  
**Custody Services**  
**Order Management**  
**Savings & Deposits**  
**Loans & Mortgages**  
**Payments & Remittances**  
**Regulatory Requirements**

OLYMPIC Banking System is highly agile thanks to its dynamic parameter-driven system, which is designed to be entirely tailored and managed directly by your organisation.

OLYMPIC Banking System easily integrates with third-party systems to harmonise and enrich user experiences, simplify workflows thanks to its open, service-oriented architecture and over 200 industry standard APIs and web services to connect to.

The solution is available on premises or in a SaaS model supporting financial institutions in achieving operational efficiency and future-proofing their profitability. It provides a complete set of decision-making, transaction processing and control tools to support domestic and international services.

## BENEFITS

### Lower operating costs

Faster and easier implementation delivers seamless processes, driving automation at scale and allowing staff to focus on the key business objective: client satisfaction.

### Personalised services

Consolidate and analyse data to respond to clients' specific needs, increasing customer acquisition and loyalty thanks to a quicker, smoother experience regardless of the channel used.

### Agility & Scalability

Eliminate complexity and ensure 24x7 business continuity with a scalable and integrated solution. Standardise your IT service by leveraging a SaaS model for increased operational efficiency and workforce productivity.

### Real-time STP

Future-proof your business by providing the right data, information or service at the right time.

### Diversified servicing

The extensive set of functionalities offered by APIs will allow banks and financial institutions to widen their service offerings and attract new customer segments.

### Eliminate compliance risks

Automatically embed regulatory constraints into workflows, making sure the activities performed are fully compliant with all major regulatory and legal initiatives.
